The Saudi Food & Drug Authority is an independent organization mainly responsible for regulating imported/locally produced food, drug and medical devices, which includes, inter alia, setting their standards.

(ISO 20166-2:2018 Molecular in vitro diagnostic examinations -- Specifications for pre-examinations processes for formalin-fixed and paraffin-embedded (FFPE) tissue -- Part 2: Isolated proteins), issued by ISO, has been adopted identically/with modifications in its original language as a national standard and approved by SFDA CEO decision No (...) on (date)

Scope:

This document gives guidelines on the handling, documentation, storage and processing of formalin-fixed and paraffin-embedded (FFPE) tissue specimens intended for the examination of isolated proteins during the pre-examination phase before a molecular assay is performed.

This document is applicable to molecular in vitro diagnostic examinations including laboratory developed tests performed by medical laboratories and molecular pathology laboratories. It is also intended to be used by laboratory customers, in vitro diagnostics developers and manufacturers, biobanks, institutions and commercial organizations performing biomedical research, and regulatory authorities.

This document is not applicable for protein examination by immunohistochemistry.

NOTE International, national or regional regulations or requirements can also apply to specific topics covered in this document.
