Glycophos 216mg/mL (Sodium Glycerophosphate), Clarification of Shelf Life Stickers

Dear Healthcare Professional,

Fresenius Kabi in agreement with the Saudi Food and Drug Authority would like to inform you of important information for Sodium Glycerophosphate:

Summary

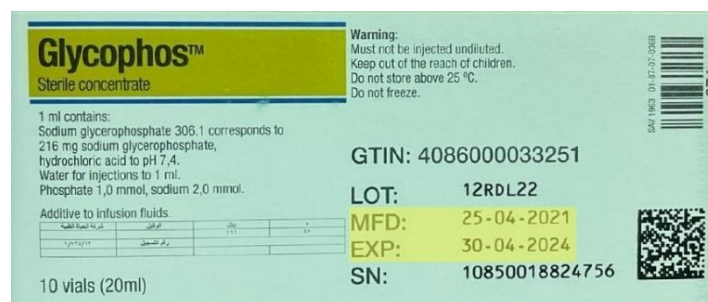

- The outer Cartons of Glycophos of batch numbers: 12PDL20, 12PDL21, and 12PDL26 have stickers stating the expiry date 04/2023 while the inner label stating the expiry date 04/2022, the stickers were not applied in the inner label due to the small space and since the packaging is tightly closed, which ensures the safety of the product and its compliance with manufacturing specifications.
- The expiry date is 04/2023 (3 years Shelf life) for all quantities of Glycophos with batch numbers: 12PDL20, 12PDL21, and 12PDL26.

Further information on the safety concern and the recommendations

Glycophos 216mg/mL is indicated in adult patients and infants as a supplement in intravenous nutrition to meet the requirements of phosphate.

We are confirming that this concern is related to batch numbers 12PDL20, 12PDL21, and 12PDL26 only and the concern has been solved with our manufacturing facilities to avoid any inconvenience.

All other imported shipments of Glycophos 216mg/mL are stating the correct shelf life (3 years) in the inner and outer labels, please find below a picture of outer carton as an example for other shipment:

Call for reporting

You can help provide more information on the safety of this medicine for National Pharmacovigilance Centre (NPC) by one of the following:
