

Saudi Public Assessment Report

(Summary Report)

Rigorixa[®]

Type of Application: New Drug Application.

Type of Product: Human Generic Drug.

Active Pharmaceutical Ingredient(s): Celecoxib

ATC code: M01AH01

Dosage Form: Capsule, hard

Dosage Strength: 200 mg

Pack Size: 20

Shelf life: 24 months

Storage Conditions: Store below 30°C

Reference Product in SA (if applicable): Celebrex

Marketing Authorization Holder: Alpha Pharma Industry

Note: The Saudi PAR is a final document, which provides information relating to a submission at a particular point in time and will not be updated after publication.

Manufacturer: Alpha Pharma Industry

Registration No.: 1409222607

Date of Decision: 11/09/2022

Proposed Indications:

Rigorixa is indicated in adults for the symptomatic relief in the treatment of osteoarthritis, rheumatoid arthritis and ankylosing spondylitis.

The decision to prescribe a selective cyclooxygenase-2 (COX-2) inhibitor should be based on an assessment of the individual patient's overall risks

Product Background

This product is considered as a human generic drug for Saudi regulatory purposes qualified to follow the SFDA's regulatory Regular pathway.

The SFDA approval for Rigorixa® is based on a review of the quality, safety and efficacy of the product provided as an e-CTD in accordance with the relevant guidelines, basic product information summarized hereinafter:

Drug Substance

- Celecoxib is a white or almost white, crystalline powder. Celecoxib is practically insoluble in water, freely soluble to soluble in ethanol, soluble in methylene chloride. Polymorphism has been observed (Form-III).
- The drug substance is manufactured by a multiple-step chemical synthesis.
- The structure of the API has been fully elucidated using several spectroscopic techniques.
- The drug substance specification includes relevant tests for proper quality control. Whereas the control methods are validated according to international guidelines.
- Appropriate stability data have been presented and justify the established re-test period.

Drug Product

- The finished product is available as capsule. Each capsule contains 200 mg of Celecoxib Form-III. The composition of the drug product is adequately described, qualitatively and quantitatively. Suitable pharmaceutical development data have been provided for the finished product composition and manufacturing process.
- The manufacturing process is described narratively and in sufficient detail, taking into account pharmaceutical development data. Batch manufacturing formulas and in-process controls are included.
- The drug product specification covers appropriate parameters for this dosage form which allow for proper control of the finished drug product. The control methods are validated according to international guidelines. Batch data show consistent quality of the drug product.
- The drug product is packaged in Alu – Alu blister.
- Appropriate stability data have been generated in the packaging material intended for commercial use and following relevant international guidelines. The data show good stability of the finished product and support the shelf life.

Clinical Aspects

Bioequivalence Study

Ratio and 90% Confidence Intervals (CI) of Rigorixa® (Celecoxib) 200 mg versus Celebrex® (Celecoxib) 200 mg Film-coated tablets:

Pharmacokinetic Parameter	Point Estimate	90% CI
C _{max}	111.44	98.04 - 126.69
AUC _{0-t}	112.54	105.55 - 120.00
AUC _{0-∞}	111.17	104.79 - 117.93

Based on the results obtained in this study, Rigorixa® (Celecoxib) 200 mg of Alpha pharma industries, Saudi Arabia, is **bioequivalent** to Celebrex® (Celecoxib) 200 mg of Pfizer Pharmaceuticals LLC, Puerto Rico, under fasting Conditions.

Product Information

The approved Summary of Product Characteristics (SPC) with the submission can be found in Saudi Drug Information System (SDI) at: <https://sdi.sfda.gov.sa/>

The date of revision of this text corresponds to that of the Saudi PAR. New information concerning the authorized medicinal product in question will not be incorporated into the Saudi PAR. New findings that could impair the medicinal product's quality, efficacy, or safety are recorded and published at (SDI or Summary Saudi-PAR report).
